Interesting Facts to Learn About Hybrid Cars; 2. Why There Is No Need For Manual Transmission On Hybrid Cars? On a vehicle with an electric motor for driving the wheels, there is absolutely no need for any manual gearbox at all. With the Hybrid Drive mode, including IC and single electric motor as the power source, the computer has to control the entire operation including torque distribution. Hence, it is highly doubtful that a manual speed control system would do any good for these vehicles.
